

THE
THIRD ANNUAL

MSCAI

Induction Ceremony

FRIDAY, MAY 6, 2016
REGENCY R

The Society for Cardiovascular
Angiography and Interventions

MSCAI Class of 2016

Please join SCAI in honoring our 2016 Class of Master Interventionalists of SCAI (MSCAI). These individuals have demonstrated excellence in Invasive/Interventional Cardiology over a career, manifested by a commitment to the highest levels of clinical care, innovation, publication, and teaching.

Robert J. Applegate, M.D., MSCAI

Dr. Applegate has been a central figure of interventional cardiology at Wake Forest Baptist Medical Center since 1987. He joined SCAI in 1993, and has served as the Education and Budget and Finance Committee chairs, the Board of Trustees, and is currently the co-chair of the Annual Meeting program. His contributions to interventional cardiology are substantial in clinical, teaching and education, and research arenas. He led one of the first transitions from a femoral first to a radial first program at Wake Forest Baptist Medical Center in 2009. He has been heavily involved in structural heart disease interventional development in North Carolina, implanting the first TAVR in North Carolina in 2011. Dr. Applegate has served on numerous editorial boards, including *JACC*, *JACC: Intervention*, *Journal of Invasive Cardiology* and the *Journal of Interventional Cardiology*. He has published more than 100 peer-reviewed manuscripts and has written more than 15 book chapters. He has served as a site PI on more than 50 multicenter randomized trials. Dr. Applegate was the national PI for the AngioSeal Evolution Multicenter Registry. In addition to clinical trials, he has been the lead investigator at Wake Forest for their interventional database, focusing on clinical outcomes after drug-eluting stents and vascular access.

James C. Blankenship, M.D., M.Sc., MSCAI

Dr. Blankenship is a practicing interventional cardiologist at Geisinger Medical Center and is the director of the Geisinger cardiology department and catheterization laboratories. He is an adjunct professor of medicine at Temple University Medical College and has authored or co-authored over 200 scientific abstracts and publications. He has represented the American College of Cardiology to the American Medical Association Relative Value Update Committee (RUC) for the past 15 years and chaired the ACC RUC Task Force for that time. He will finish his term as president of the Society for Cardiovascular Angiography and Interventions in May 2016. In his spare time, he takes yearly medical mission trips with Solid Rock Missions to the Dominican Republic and recently earned a master degree in health care administration from the Harvard School of Public Health. His favorite accomplishment is helping his wife of 32 years raise 3 outstanding children.

John D. Carroll, M.D., MSCAI

Dr. Carroll received his AB (Biology) cum laude from Princeton University in 1972 and his M.D. (Alpha Omega Alpha) from the University of Chicago in 1976. He trained in internal medicine and cardiovascular disease at Tufts New England Medical Center from 1976-1981, finishing as the Samuel Levine Cardiology Research Fellow of the American Heart Association. He then was a cardiology research fellow at Universitaetsspital in Zurich, Switzerland. From 1982-1996 he was a member of the faculty at the University of Chicago Pritzker School of Medicine and directed the Hans Hecht Cardiac Catheterization Laboratory. He started performing aortic and mitral valvuloplasties starting in 1985. In 1996 he moved to the University of Colorado as Professor of Medicine, Director of Interventional Cardiology, and Co-Medical Director of the Cardiac and Vascular Center. His has developed the interventional program at the University of Colorado with his partner, John Messenger.

He is currently a member of various national and international editorial and advisory boards, the STS-ACC Transcatheter Valve Therapy Registry Steering Committee, and the Steering Committee of the RESPECT trials. Dr. Carroll has recently co-edited with John G. Webb, MD of Vancouver the first textbook on "Structural Heart Disease Interventions." He has four children through his marriage to Eugenia P. Carroll, M.D.

MSCAI Class of 2016

Tyrone Collins, M.D., M.S.C.A.I

Dr. Collins earned his medical degree from Meharry Medical College in Nashville, Tennessee. He completed his internship at Providence Hospital in Washington, D.C. followed by his residency and a fellowship in cardiology at Walter Reed Army Medical Center, also in Washington, D.C. Dr. Collins is a Fellow of the Society for Cardiovascular Angiography and Interventions (FSCAI), the American College of Cardiology (FACC), the Society of Vascular Medicine, the American Heart Association (FAHA), a member of the Association of Black Cardiologist, the International Andreas Gruentzig Society and International Society of Endovascular Specialist. He has been on the faculty at Ochsner Medical Center in New Orleans since 1989. He is the Director of the Cardiac Catheterization Laboratory and the Systemwide Cardiac Catheterization Laboratory Director for the Ochsner Medical Center and Ochsner Medical System respectively.

Dr. Collins currently serves as an Editorial Board Member for *Catheterizations and Cardiovascular Interventions* journal. He has authored more than 100 manuscripts, 100 abstracts, and 25 book chapters. He served on the Board of Trustees for the Society for Cardiac Angiography and Interventions (SCAI), was chairman of the Carotid Interventional Committee and a member of the Peripheral Vascular Disease Committee, and Fellows in Training Committee.

John McB. Hodgson, M.D., MSCAI

Dr. Hodgson received his M.D. from the Dartmouth Medical School in 1978. He completed his cardiology fellowship training at the University of Michigan, and additional Interventional training at Brown University. In 1985, he accepted the position as Director of Cardiac Catheterization at the McGuire VAMC campus of the Medical College of Virginia in Richmond. He remained in that position until 1989 when he accepted the position as Director of Invasive Cardiology in the Case Western Reserve University System, Cleveland.

Dr. Hodgson now serves as Chairman of the Cardiology Department and Co-Director of the Geisinger Heart Institute in north-central Pennsylvania. Dr. Hodgson is a Past President of the Society for Cardiovascular Angiography and Interventions, and Director and Treasurer of the Certification Board for Cardiovascular Computed Tomography. Dr. Hodgson has served as an editorial consultant and author for many cardiology journals and is the section editor for non-invasive cardiac imaging for *Catheterization and Cardiovascular Interventions*. Dr. Hodgson has several patents and has also produced award-winning web-based image interpretation tools for health care professionals.

J. Jeffrey Marshall, M.D., MSCAI

Dr. Marshall received his medical degree from the University of Florida, Gainesville, Florida. He completed his residency in Internal Medicine, and his fellowship in cardiology and angioplasty at the Medical College of Virginia, Richmond, Virginia. Dr. Marshall has achieved many distinctions and awards in his medical profession from cardiac research, to Editor-in-Chief of *SecondsCount.org*, an educational website for patients. He was the former President of SCAI (The Society for Cardiovascular Angiography and Interventions), and spearheaded the angioplasty and acute MI (STEMI) programs at Northeast Georgia Medical Center (NGMC). Dr. Marshall served on the faculty at Emory University where he was an Associate Professor of Medicine and Cardiology for 11 years and was also on the faculty at the Medical College of Virginia. He is the medical director of the cardiac catheterization laboratory at NGMC, served on the Subspecialty Board on Cardiovascular Disease for the American Board of Internal Medicine and is a member of the Composite Board of Medicine in Georgia. His clinical interests include peripheral, carotid and coronary interventional procedures and research in these areas. Dr. Marshall is board certified in Internal Medicine, Cardiovascular Disease, and Interventional Cardiology.

MSCAI Class of 2016

Richard W. Smalling, M.D., MScAI

Dr. Smalling graduated from The University of Texas in Aerospace and Bio-Medical Engineering and from UT Medical School at Houston. He completed residency and fellowship at UCSD. He is board certified in Clinical and Interventional Cardiology and was honored as a Distinguished Alumnus of UTHealth, Houston and the College of Engineering at UT Austin. Dr. Smalling is on the editorial board of *Catheterization and Cardiovascular Interventions*. In addition, he holds six patents and has co-founded Windmill Cardiovascular Systems, to produce a new implantable left ventricular assist device. Dr. Smalling specializes in the percutaneous treatment of adult congenital, coronary artery, and valvular heart disease as well as peripheral vascular disease. His research interests include mechanical and pharmacologic reduction of ischemic myocardial injury, developing advanced heart attack treatment systems and new transvascular treatments for structural heart disease. Dr. Smalling is the author of over 240 Scientific Papers, 25 book chapters and 2 books. He and his wife Sharon have 3 children, Geoffrey, Elizabeth and Stephanie and 2 grandchildren. They enjoy cooking, cycling, skiing and traveling together.

Jonathan M. Tobis, M.D., MScAI

Dr. Tobis has been an interventional cardiologist since the inception of this field 30 years ago. He has extensive clinical experience, and he performs complex procedures at UCLA, a tertiary medical center. In addition, Dr. Tobis has been an active clinical investigator with 300 articles and 3 major textbooks published. His earlier research helped to develop digital angiography and intravascular ultrasound, both of which are now mainstays of cardiac catheterization. More recently, his research has focused on patent foramen ovale. Dr. Tobis has published articles relating to its detection, prevalence, treatment, and association with a variety of conditions. He has been particularly interested in the role of PFO in stroke and migraine. He has personally seen and interviewed 850 patients with a variety of PFO related conditions. Over the years, he has mentored research projects for 30 fellows, both national and international, and more than 30 medical students. Currently, Dr. Tobis is one of the principal investigators on the PREMIUM Trial, which is a 45 center controlled trial of PFO closure in patients with migraine. In addition, he is a consultant to the RESPECT Trial, which is a multicenter controlled trial of PFO closure vs. medical therapy for cryptogenic stroke with PFO.

SCAI would like to express its sincere gratitude for the following people who participated in this year's MSCAI Selection Committee:

Robert J. Applegate, M.D., MSCAI
Joseph D. Babb, M.D., MSCAI**
Steven R. Bailey, M.D., MSCAI**
Ted A. Bass, M.D., MSCAI*
Suman Bhandari, M.D., FSCAI
James C. Blankenship, M.D., M.Sc., MSCAI
Airlie A. Cameron, M.D., FSCAI
Jeffrey J. Cavendish, M.D., FSCAI
Charles E. Chambers, M.D., MSCAI*
John P. Cheatham, M.D., MSCAI*
David A. Clark, M.D., FSCAI
Michael J. Cowley, M.D., MSCAI**
David A. Cox, M.D., FSCAI
Donald E. Cutlip, M.D., FSCAI
Larry S. Dean, M.D., MSCAI**
Gregory J. Dehmer, M.D., MSCAI**
Douglas E. Drachman, M.D., FSCAI
Peter L. Duffy, M.D., M.M.M., FSCAI
Mackram F. Eleid, M.D., FSCAI
David P. Faxon, M.D.
Ted E. Feldman, M.D., MSCAI**
Kirk N. Garratt, M.D., M.Sc., FSCAI
Timothy D. Henry, M.D., MSCAI*
Ziyad M. Hijazi, M.D., MSCAI**

John M. Hodgson, M.D., MSCAI
David R. Holmes, M.D., FSCAI
Clifford J. Kavinsky, M.D., Ph.D., FSCAI
Morton J. Kern, M.D., MSCAI**
Daniel M. Kolansky, M.D., FSCAI
J. Jeffrey Marshall, M.D., MSCAI
Biju Mathews, M.D., FSCAI
Doff B. McElhinney, M.D., FSCAI
Srihari S. Naidu, M.D., FSCAI
Samir B. Pancholy, M.D., FSCAI
Sahil A. Parikh, M.D., FSCAI
Michael Ragosta, M.D., FSCAI
Sunil V. Rao, M.D., FSCAI
John P. Reilly, M.D., FSCAI
Orlando Rodriguez, M.D., M.M.S., FSCAI
Ashok Seth, M.D.
William C. Sheldon, M.D., FSCAI
Richard W. Smalling, M.D., MSCAI
Carl L. Tommaso, M.D., MSCAI**
Barry F. Uretsky, M.D., MSCAI**
George W. Vetrovec, M.D., MSCAI**
Bonnie H. Weiner, M.D., M.S.E.C.,
M.B.A., MSCAI**
Christopher J. White, M.D., MSCAI**

*Along with the people indicated above with an asterisk, the following people were **2015 recipients of MSCAI**:

Howard Herrmann, M.D., MSCAI
William O'Neill, M.D., MSCAI
Igor Palacios, M.D., MSCAI
Albert Raizner, M.D., MSCAI
Kenneth Rosenfield, M.D., M.H.C.D.S., MSCAI

Along with the people indicated above with an asterisk, the following people were **2014 recipients of MSCAI:

Peter Block, M.D., MSCAI
Antonio Colombo, M.D., MSCAI
Charles Mullins, M.D., MSCAI
Carlos Ruiz, M.D., Ph.D., MSCAI
Zoltan Turi, M.D., M.P.H., MSCAI
