LEARNING OBJECTIVES

After participating in this program, learners will be able to:

- Perform the procedure of transradial catheterization as well as intervention including patient selection, pre-procedural evaluation, arterial and venous access, catheter choices, hemostasis, intraprocedural adjunctive pharmacotherapy and post-procedural care, with emphasis on the importance of following “best practices”.
- Describe the recommended strategies for approaching patients with variations in anatomy, procedural complications, and complex interventional subsets.
- Apply the available evidence surrounding transradial access in clinical decision making.

TARGET AUDIENCE

The primary target audience for this program is interventional cardiologists and interventional cardiology fellows-in-training interested in the best practices of and advanced aspects of transradial access / intervention training and education. Secondary target audiences include cath lab techs and nurses.

ACCREDITATION STATEMENTS

Physicians: The Society for Cardiovascular Angiography and Interventions Foundation is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to provide continuing medical education for physicians.

The Society for Cardiovascular Angiography and Interventions Foundation designates this education activity for a maximum of **6.5 AMA PRA Category 1 Credit(s)**[™]. Physicians should only claim credit commensurate with the extent of their participation in the activity.
