

February 12 2026

The Honorable Greg Murphy, MD  
407 Cannon House Office Building  
Washington, D.C. 20515

Dear Representative Murphy:

On behalf of the Society for Cardiovascular Angiography and Interventions (SCAI) we are writing in strong support of H.R.2433, the "Reducing Medically Unnecessary Delays in Care Act of 2025"! Thank you for taking up sponsorship of this important piece of legislation to reform the prior authorization process in the Medicare and Medicare Advantage programs. We believe that it is in the best interests of patients for prior authorization determinations to not only be reviewed by physicians but that they are reviewed by a physician who is credentialed in the same specialty as the treating physician as required by the "Reducing Medically Unnecessary Delays in Care Act".

Patients and physicians have been asking for prior authorization reform for decades. But the insurance industry has been blocking prior authorization reform because it will hurt their bottom line, not because of the concern that physicians will authorize medically unnecessary tests and procedures as the insurance companies claim. We stand ready to work with you to pass this critical measure as moves through the legislative process.

Sincerely,

Arnold Seto, MD, FSCAI  
Chair, SCAI Advocacy Committee
